AUDITING CLASSES:

After taking a class, you can take it again, within 6 months, for FREE!

CAMERA WORKSHOP

The workshop class consists of technical tips and assignments that reinforce what we discuss in class. People can join the class whenever they want. There is no beginning, middle or end, but an ongoing process. However, participants should have a basic understanding of **Photoshop Elements or CS**. One goal is that each participant produces a book of photographs by the end of the year, something you can share with your friends. We have occasional field trips and guest speakers and always have a good time. Your work will be critiqued by the other work shop members, so you can have feedback on how you are doing.

\$5 per class

1st and 3rd Wednesdays 3:00 pm - 4:30 pm

Instructors: Sam Spencer and Don Healy

Classes held at current location until May

COMPUTER BASICS

Learn to control your keyboard, mouse and cursor so your computer will understand what you are telling it to do. Understand Windows terminology, the desktop screen, the start menu and the taskbar. Safely get in and out of any program. Learn to create, save and print documents.
